

SMARTBRIDGE

Let's Bridge the Gap | SKILL WALLET - A SmartBridge Product

Date	29-09-2026
Team ID	SWTID-2026-7949
Project Name	Script-Controlled ACL – Restrict Record Access Based on Field Value

Initial Project Planning Template Product Backlog, Sprint Schedule, and Estimation

Use the template below to create a comprehensive product backlog and sprint schedule for implementing the Script-Controlled ACL solution. User stories cover user & role setup, table schema provisioning, script-controlled CRUD ACL implementation, and multi-persona impersonation testing.

Sprint	Functional Requirement (Epic)	User Story Number	User Story / Task	Story Points	Priority	Team Members	Sprint Start Date	Sprint End Date (Planned)
Sprint-1	User & Role Management	USN-1	As an admin, I can create test users (EEE User) and configure granular custom security roles (bb1, bb2, bb3, bb4) in ServiceNow User Administration.	2	High	Team Member 1	29-09-2026	02-10-2026
Sprint-1	Schema & Data Modeling	USN-2	As an admin, I can create the custom table 'u_institution_details' with fields (Roll No, Name, Faculty, Branch Choice [ECE, EEE, CSE], Email, Phone) and populate baseline test records.	3	High	Team Member 2	03-10-2026	07-10-2026
Sprint-2	Script-Controlled Read Security	USN-3	As an EEE User, I can view only records where Branch is 'EEE' via a server-side Script-Controlled Read ACL combining condition 'Branch is EEE' and gs.hasRole('bb1') check.	5	High	Team Member 1	08-10-2026	13-10-2026
Sprint-2	Record Insertion & Create ACL	USN-4	As an authorized EEE User with role 'bb2', I can create new student records in 'u_institution_details' using the 'New' button.	2	Medium	Team Member 3	14-10-2026	17-10-2026
Sprint-2	Record Modification & Write ACL	USN-5	As an authorized user with role 'bb3', I can edit and update existing EEE branch records and save modifications safely.	2	Medium	Team Member 2	18-10-2026	21-10-2026
Sprint-3	Record Deletion Governance	USN-6	As an authorized user with role 'bb4', I can delete EEE records from the table, while non-bb4 users are prevented from executing deletions.	2	High	Team Member 3	22-10-2026	25-10-2026
Sprint-3	Impersonation & Verification	USN-7	As a Security Administrator, I can impersonate EEE User, Non-role User, and Admin to verify that zero cross-branch data leakage occurs and admin retains full access.	3	High	All Team Members	26-10-2026	29-10-2026
