

SMARTBRIDGE

Let's Bridge the Gap | SKILL WALLET - A SmartBridge Product

Date	29-09-2026
Team ID	SWTID-2026-7949
Project Name	Script-Controlled ACL – Restrict Record Access Based on Field Value

Team Involvement in Demonstration

Team Involvement in Demonstration:

This document records the active participation and roles of each team member during the project demonstration. It ensures that every member contributes meaningfully to the presentation and that responsibilities are distributed fairly and clearly.

S.No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation
1	Karthika M	Team Leader & Create ACL Specialist	Users Creation (Milestone-1) & Creation of ACL-Create (Milestone-4)	Led team project coordination, created test user 'EEE User', and implemented the Create ACL requiring role 'bb2' for inserting new records.	Active
2	Pooja M	Role Architect & Write ACL Specialist	Roles Creation (Milestone-1) & Creation of ACL-Write (Milestone-5)	Created custom security roles (bb1, bb2, bb3, bb4) and configured Write ACL requiring 'bb3' to govern record updates.	Active
3	Essaki priya M	Data Architect & Delete ACL Specialist	Creation of Table (Milestone-2) & Creation of ACL-DELETE (Milestone-6)	Configured table 'u_institution_details' schema with 7 fields and implemented Delete ACL restricting row removal to 'bb4'.	Active
4	Shenbaga priya R	Security & Scripted ACL Specialist	ACL Configuration (Milestone-3: Creation of Access Control List-READ)	Implemented the core Script-Controlled Read ACL combining condition 'Branch is EEE' and gs.hasRole() script checks.	Active
5	Linga sumithra S	Project Presenter & Verification Specialist	Project Outcome (Milestone-7: Conclusion) & Multi-Persona Impersonation	Presented project conclusions, explained least-privilege security outcomes, and executed live impersonation tests comparing Admin vs EEE User.	Active

Team Coordination Notes:

Aspect	Details
Team Leader / Coordinator	Karthika M
Overall Team Coordination Rating (1-5)	5 / 5 (Excellent collaboration and seamless task handoffs)
Any issues during demo	Initial delay in role cache refreshing when switching between 'security_admin' and 'EEE User' sessions.

How issues were resolved	Utilized ServiceNow incognito impersonation sessions and performed clear cache flushes, allowing instant reflection of assigned roles without latency.
